

TNS ESSENTIAL SERUM®

This unparalleled patented treatment is the first and only rejuvenating serum to combine the benefits of the proprietary growth factor blend, TNS Recovery Complex®, with potent antioxidants, peptides and other innovative ingredients to restore youthful looking skin.

- The all-in-one rejuvenating product
- Full-strength TNS Recovery Complex works synergistically with peptides to improve the appearance of fine lines, wrinkles and the overall tone and texture of skin
- Seven antioxidants fight free radical damage
- Specialty ingredients provide immediate visual smoothing
- Alpha arbutin brightens the skin

Q: What skin type is this product best for?

A: TNS Essential Serum® is appropriate for all skin types.

Q: When should I use this product in my daily skin care routine?

A: TNS Essential Serum should be applied after cleansing and toning the skin and prior to applying any other products, including sunscreens. Note: TNS Recovery Complex is in one chamber of the TNS Essential Serum pump, you do not need to incorporate TNS Recovery Complex in your daily routine.

Q: How to apply?

A: Before the first application lightly tap the top of the pump several times in the palm of your hand. Remove the cap and press on the very center of the pump to dispense both of the products onto the back of your hand and blend them together before applying.

Q: Where to apply?

A: Apply to your face, neck and décolleté.

Q: How long to use?

A: You should use TNS Essential Serum as long as you wish to improve the overall condition of your skin. Our clinical studies show that initial results occur in 30 days with best results occurring in 90 days. For best results, you should use twice daily and incorporate as part of your daily skin care routine.

Q: What is special about this product?

A: TNS Essential Serum offers an unprecedented combination of the renowned growth factor formula, TNS Recovery Complex in one chamber and APS Corrective Complex® in the other.

TNS® is the main ingredient in TNS Recovery Complex's patented skin treatment which is formulated from naturally occurring growth factors, antioxidants, soluble collagen, cytokines and matrix proteins (93.6% concentration).

Clinical studies with TNS Recovery Complex have shown:

- Reduces appearance of fine lines and wrinkles
- Diminishes appearance of age spots and dyspigmentation
- Improves skin texture and tone
- Reduces the appearance of roughness and the appearance of photo damage

APS Corrective Complex is a potent mixture of antioxidants, peptides and other innovative anti-aging ingredients that in combination support the skin's natural rejuvenate process.

APS Corrective Complex:

- Enhances the skin's natural ability to rejuvenate itself
- Fights against environmental damage
- Smooth's and tightens skin
- Minimizes the appearance of age spots

Q: What is TNS?

A: A mixture of growth factors, cytokines, antioxidants and matrix proteins.

Q: What are growth factors?

A: Growth factors are messenger proteins that are inherent in our bodies and play a crucial role in maintaining healthy skin.

Q: Why does the TNS Recovery Complex have a bit of an unusual scent?

A: TNS Recovery Complex has a 93.6% concentration of TNS which is a very high concentration of protein that has a distinct odor.

Q: What is APS Corrective Complex?

A: A patented mixture of antioxidants, peptides and other innovative ingredients that in combination supports the skin's natural rejuvenation process.
